## ESTATE SERIES Designed to exceed expectations

Providing the highest level of safety, security and convenience for specific applications and for customers that want the very best.

## 3/4 HP CARRIAGE HOUSE DOOR OPENER™ - 3595 Ultra-heavy-duty performance

Created exclusively for heavy carriage house doors and custom doors, the 3595 is engineered for maximum lifting capacity and super-quiet operation. Made tough with a commercial I-beam rail system and chassis support bracket, it also offers a 2-speed dual sprocket customizable to door requirements. The system features our largest and most powerful motor. Plus it includes our patented Motor Vibration Isolation System (MVIS®) and chain spreader for reduced noise and smooth-running performance year after year.

The in-vehicle universal remote control.  
See your automobile dealer for availability.

## The 3595 Difference...

- Specially designed for custom and solid wood doors
- Largest, most powerful motor/heavy-duty rail system
- Improved performance in cold weather
- Super-quiet operation
- Premium accessory package

## For Safety, Security and Convenience

---

### Brighter Light...Hands-Free

Motion-detecting control panel turns on lights automatically. 200 watts of light with 1 1/2 to 4 1/2 minute light delay. Hinged light covers make bulb changes easy.

### I-Beam and Chassis Support Bracket

Rugged construction for added strength and durability.

### Super-Quiet Motor Vibration Isolation System (MVIS®)

Provides smooth-running, trouble-free operation year after year.

### Dual Sprocket Assembly

Allows for standard or slow speed door travel to meet all installation requirements.

### Rolling Code Technology

With rolling code technology, you are assured of a new code with every use. Every time you push the button, the code automatically rolls over to any one of over 100-billion new codes, never to be repeated. Operates up to 3 garage doors.

### Enhanced Radio Technology™ (ERT™)

315MHz frequency provides superior protection from outside signal interference.

## Safety Features

---

### Equipped with PosiLock®

Once your garage door goes down, it's securely locked with PosiLock®, a patented Chamberlain® feature.

### The Protector System®

Projects an invisible light beam across garage door opening; if interrupted while the door is closing the opener reverses before making contact. If beam is obstructed, door will not close.

## Installation Features

---

### Exclusive! The Smart Garage Door Opener®

Lets you electronically program security codes from the motion-detecting control panel or the powerhead.

### Quick-Connect™ Terminals

Push-in wiring for quicker installation.

### 6-Foot Power Cord

Makes connecting to a power source easier than ever. Ideal for vaulted ceilings.

### Enclosed Gear Case

Provides continuous lubrication for longer life and smoother operation.

## Optional Accessories

---

### Wireless Keyless Entry with Security+®

No need for a key or remote control. Gives friends, relatives and service people limited access to the home. Illuminated for nighttime use.

### Laser Garage Parking Assist

The high-tech solution that helps you park perfectly in your garage! As you pull into your garage the laser is activated and projected onto your dashboard, making it easy to park in the same spot every time.
